PEMBINA NEWS ADVERTISER

Vol. 6 No. 23 June 14, 1961 A. Playford, Publisher. Box 180, Drayton Valley.

LEGIONAIRES DUMP BRETON 9-3

The Drayton Valley Legionaires got off to a slow start but soon picked up the slack in the ninth to take a 9 - 3 victory over Breton last Sunday afternoon. The game was played at the Legion Baseball Park.

The Legion boys never looked back as they added two runs each in the seventh and eighth innings to make the final score read 9 - 3 in their favor.

Harry Antoni, Lavens Morike and Brule Bouillon led the home town with two runs each. Ron Parry hit a triple bringing home two runners and got a run himself while Ken Wallace and Les Tucker accounted for the other two scores. Murray Des was credited with the victory. The Legionaires next start is on Wednesday evening when they travel to Warburg for an evening game.

NEW BANK OPENS

Drayton Valley's newest acquisition for the business district, the new Provincial Treasury Branch, which opened Monday in the former Government Liquor Store building is getting underway with Manager A.A. Braden rapidly getting acquainted with people of the town and district.

Five bank employees will staff the bank at the outset, with adequate room provided for additional staff as needed. Manager A.I. Braden hails from Lethbridge, Accountant George Lane is from Vegreville and Talier Arnold Erickson is from Westsaskatoon. Mrs. Sylvia Latimer is ledgerkeeper and stenographer is Mrs. Marian Helplin.

On Friday night, June 8th the bank had an official opening with members of the Drayton Valley W.L. serving coffee and doughnuts; approximately 360 were shown through the fine new bank building at that time or just previously.

An enormously heavy vault door has been constructed; it is said to be one of the heaviest ever.

D.V. JUVENILES

D.V. JUVENILES SWEEP DOUBLEHEADER. By Mike Gormley.

The Drayton Valley Juveniles baseball team under the direction of Bill Davies easily took both ends of a doubleheader at Mayersbrook on Sunday afternoon. The first game was a walk-away and after six innings of play the D.V. team walked off the field with a 21 - 5 victory. In the second half of the twin bill the Mayersbrook team really made a game of it for three innings before the roof fell in on them and the local went on to pile a 19 - 1 score before the day was done.

The victory put the Valley team in first place in the league standings. This Northern Juvenile

At the official bank opening last Friday evening Arnold Erickson, Talier, A.I. Braden, manager, Mr. C.I. Davy, superintendent of Treasury Branches, George Lane, accountant and Mr. L.D. Simonson, of the Treasury Branches head office.

HOSPITAL BOARD BANQUET

Dr. Wallace of the Department of Health, addressing the gathering at the D.V. Municipal Hospital Board Banquet.

Drayton Valley Municipal Hospital Board was host for a banquet which was served in the Cardium Room on Friday evening last when over one hundred guests and hospital officials gathered for the dinner, which may become an annual affair.

Seated at the head table were Dr. L.D. Wallace, of the Department of Public Health, who was taking the place of Hon. J. Donovon Ross, Minister of Health who was unable to be present for the meeting. Mr. Foster, an assistant director in the Department of Public Health, Mrs. Wallace, Mrs. Foster, Mr. and Mrs. Don McKenzie, Mayor and Mrs. Adrian Meier, Dr. and Mrs. Brooks, Mrs. C.W. Woods, M.L.A. and H.T. Delby, development officer for L.D.'s 77, 78 and 80, Don McKenzie, chairman of the hospital board acted as master of ceremonies and introduced the head table.

Mrs. MacInnes was introduced as the president of the Hospital Auxiliary, and Mrs. C. Schindler was introduced as president of the A.A.R.N. Dr. Brooks spoke very interestingly of the first days here in the beginning of the 50s when, with all the rigs working around here, there was an unusual demand for medical attention, and yet, with the executive talent and very poor road conditions it was hard to reach patients or to get them out to hospital in Edmonton when necessary. During those days helicopter and airplanes were used more than once in taking badly injured patients into Edmonton. He told of how he

had often taken as many as four patients at one time in his station wagon into Edmonton hospitals. He spoke also of the first beginnings of action towards getting a hospital in Drayton Valley and the formation of the Hospital Board. Dr. Brooks mentioned the early work done by Margaret Colding, who is now Mrs. L. Stordalvill in the Nursing Station with the Anglican Mission here; how she would often travel by horseback to attend to a patient or her faithful horse "Dolly".

Mrs. Woods stated that Alberta was one of the first governments to have hospital aid, when they passed the Hospital Act in 1917, and established the first Municipal Hospital in 1919. She spoke of her own efforts to persuade the present government to establish a municipal hospital in Drayton Valley. Another speaker Mr. Foster, spoke on Hospital Grants, and Dr. Wallace concluded the dinner meeting with a speech in which he spoke of the excellent work done by smaller hospitals and that very often more personalized care was given to the patients in the smaller hospital than in the larger ones.

PUBLIC NOTICE
THE TOWN OF DRAYTON VALLEY

Item	On	From	To	Length	Assessable Frontage	Flankage	Estimate
1.	55th Ave.	48 st.	58A St.	560.	850.57	Nil	1866.00
2.	49A St.	55 Ave.	54 Ave.	255.00	Nil	537.78	804.00

The cost of the project will be charged against the properties abutting and shall be undertaken as local improvements. The special assessment will be payable as either a prepayment or over a period of ten years.

Unless the majority of the owners of the lands that may be assessed, representing at least half of the value as assessed, petition the Council against it within two weeks after the last publication of this notice, the local improvements may be undertaken and the cost thereof assessed by the system referred to in the notice.

If no objections are received the Council will proceed with this project at its discretion but within two years. Final reading of the By-Law authorizing this project will be given at a special meeting not later than the 10th. August 1961, providing there is no objection to it.

W.G. Johnson
Sec. - Treasurer.

Editor's Corner A.A. MEETING

Alcoholics Anonymous, Drayton Valley Branch, held their first public meeting last Sunday afternoon in the Cardium Theatre with men and women from Edmonton, Hinton and other places attending the meeting. Drayton Valley A.A. has been organized for about three years, and is becoming a very effective group in leading others into the path of sobriety, and the group has grown in number lately. More and more requests are coming to the group for help in solving the very serious problems that alcoholism often causes.

Following the meeting in the Cardium Theatre the group adjourned to the hall of the United Church where they partook of an excellent cold plate supper which was followed by an open meeting in the hall, with further testimonials as to the effectiveness of the A.A. program in the lives of individuals.

Eden onco member took charge of the afternoon meeting and talked on various phases of the A.A. program. "The 12 Steps of A.A.", "The 12 Traditions of A.A.", etc. Chairman for the evening was "Bill", who has been in the A.A. program for three years. Other speakers were "Martin" with 8 years of complete sobriety behind him, "Vern" with ten years, "Dale" with 3 years, and "Tony" with three and a half years. A.A. is sixteen years old in Edmonton and members of the Edmonton group like to point out that the first three members of the group which was formed three sixteen years ago are still living and are still active members of the group.

Theme of the message of each of the speakers was denigrating that they had at last taken the road of sobriety after, for the most of them, many years of alcoholism. All recognized very definitely the Divine Hand in "Heavily guiding them into the path of sobriety, for all realized and admitted their own helplessness to stop drinking of their own accord, and they realized that God had led them finally, when they reached that place of despair where they threw themselves upon the mercy of God, into a new and wonderfully better life. A life that was better for themselves, for their families, friends and loved ones, and for society as a whole. In a word, they had brought their lives, and the lives of others, out of the mire of self and divided them into the great well of Divine help.

For some as yet unknown reasons, whether they be physiological or psychological, there are certain men and women who are unable to drink in moderation. Some vast force of compulsion, either within their mental or their physical makeup causes them to drink to excess as long as they have taken one drink. As the recovered alcoholics themselves say: "You come to that place where one drink is too many and one husband not enough. Those following the A.A. program certainly do not advocate moderation, they advocate total abstinence, so far as they themselves, and those who are similar in nature are concerned. They tell those whom they are helping on the road of recovery from alcoholism, that they must make up their minds that they can never again take even one drink. But the program they recommend is easily followed. "For" say they, "you need think only of today... No liquor today." This is the correct thought that the Master, Moses of Nazareth had in mind, when He said, "Take no thought for tomorrow..."

A.A. conducts a sort of "crash" program in helping others to find the road of sobriety. Members stand in readiness to go at a moment's notice, either day or night, to the help of some one who has succumbed to the temptations of the moment and stands in need of moral support and help.

News in Picture Staff Pictures.

A.A.
Alcoholics Anonymous is a fellowship of men and women who share their experience, strength and hope with each other that they may solve their common problems and help others to recover from alcoholism. The only requirement for membership is a desire to stop drinking. There are no dues or fees for A.A. membership; we are self-supporting through our own contributions. A.A. is not allied with any sect, denomination, political organization or institution; does not wish to engage in any controversy; neither endorses nor opposes any cause. Our primary purpose is to stay sober and help other alcoholics to achieve sobriety.

The 12 Steps of A.A.
1-We admitted we were powerless over alcohol—that our lives had become unmanageable.
2-Came to believe that a Power greater than ourselves could restore us to sanity.
3-Made a list of all persons we had harmed, and went to confess to them and to make amends to them where possible.
4-Made a searching and fearless moral inventory of ourselves.
5-Admitted to God, to ourselves, and to another human being the exact nature of our wrongs.
6-Were entirely ready to have God remove all these defects of character.
7-Humbly asked Him to remove our shortcomings.
8-Made a list of all persons we had harmed, and became willing to make amends to them all.
9-Made direct amends to such people wherever possible, except where to do so would injure them or others.
10-Continued to take personal inventory, and when we were wrong promptly admitted it.
11-Sought through prayer and meditation to have God remove all our defects.
12-Having had a vision of God, we tried to carry this message to alcoholics, and to practice these principles in all our lives.

The 12 Traditions of A.A.
1-Our primary purpose is common to all; the recovery of the alcoholic from his addiction.
2-There is no alignment with any institution, no affiliation with any sect, denomination, political party, or any other organization.
3-There is no alcoholism in A.A.
4-Each group should be autonomous in its affairs and should be self-supporting.
5-Each group should be self-supporting through its own members.
6-Each group should be self-supporting through its own members.
7-Each group should be self-supporting through its own members.
8-Each group should be self-supporting through its own members.
9-Each group should be self-supporting through its own members.
10-Each group should be self-supporting through its own members.
11-Each group should be self-supporting through its own members.
12-Each group should be self-supporting through its own members.

For their prayer A.A. has chosen the beautiful prayer of Dr. Reinhold Niebuhr for years Professor of Applied Christianity, Union Theological Seminary, New York "God grant me the serenity to accept the things I cannot change, courage to change the things I can, and wisdom to know the difference".

A.A. was formed first in New York City about a quarter of a century ago by "Bob" and "Bill", a stockbroker and a doctor. When Bill came to Bob with his problem of alcoholism he found that Bob, too, was suffering from the same problem and together they worked out the program which has since been conducted around the world and has helped countless millions of alcoholics.

Anyone in this district needing help with the problem of drinking may phone 542 - 3762.

KINDERGARTEN
With 46 pupils present for the second day of Kindergarten Daily Vacation Bible school being conducted in Scout Hall by the Evangelical Covenant Church, indications are that by the time the two weeks course is over the enrollment will be very large.

This picture shows were Leslie Hall, 2 1/2 years old, with her older brother Wayne, 5, at the All Saints Anglican Sunday School. Little Leslie is modeling what the well-dressed young lady will wear to Sunday School. Parents of the children are Mr. and Mrs. Donald Hall. Mr. Hall is employed with Imperial Oil.

Miss Wanner, missionary to Sierra Leone, West Africa, stands before the screen after showing her very excellent slides and life of the natives of the Sierra Leone province.

D.V. B.S.
Self on bright-eyed young chap "Are we going to get out pictures in the paper?"

From Scoop's Notebook

Two hamsters were born in the Webber household, one male, one female. That, of itself is not too remarkable, but, these were joined together at birth and thus were Siamese hamsters. They were joined at the foot. Their mother separated them, and one of them died, but the other lived and flourished quite healthily. Arnold Webber, their owner is a paper route boy for the PNA, but had the misfortune to break his leg so his older brother is taking the route pending Arnold's recovery.

A ROSEBUSH WITH 271 buds in full bloom is NEWS! at the moment of writing a yellow primrose rosebush in the garden of Mrs. Yvonne Koshler has the astounding yield of 271 buds, some of which are quite large. The rosebush was purchased last year from Helen's Flower Shop and this is the first year for it to bloom. A companion bush has 76 roses. After the gentle little rain on Monday and the sunshine since, the rose bush has really earned up to its task of producing roses.

We have been in Drayton Valley for seven years now, 1964 and we thought we would see the time when payers for rain would be offered here. Payers for cessation of rain would be considered, but FOR RAIN will, there was apparently just no need for it! 1964, 1965, 1966, 1967, 1968, 1969 and at least the first half of 1960, WFTI

But in a Drayton Valley church last Sunday we heard prayers for rain offered! by the way, did you notice what happened on Monday?

Though certainly not an expert, nor even an avid golfer, the Drayton Valley Golf Club Cup we have been wearing has excited more comment than if we had been wearing a bikini. We found on a short trip on the recent long weekend that it did more to advertise Drayton Valley than as if we had had a two-headed male wrapped around our arm. We feel that for putting Drayton Valley on the map so far as outside citizens are concerned our Golf Club cup can't be beat. If anyone feels any tinge of jealousy we bought ours at Koss Mens Wear, and they are also available at Thompson's Sporting Goods Store.

Dave Chow, formerly of the Pembina Gardens here, is starting a restaurant in Hay River, way up in Northern Alberta. Dave was in D.V. the other day looking after his insurance here.

World Wanderer Edith Deby, sent us a wonderful view picture of scenic Italy recently. She was "led a coffee break in this lovely spot yesterday. Ed-

ward Rame, and Capt. J. gu-gu-gu. One really should have six months to see Italy properly. We have a week in France starting tomorrow and then will be back in London. Allan has been quoting his from the PNA, for me, but has promised to save all issues.....

And here is another recent card... "Howdy Mr. Scoop! When we are on a trip like this we never forget our many friends. Tossing the Western States and heading for Los Angeles tomorrow. The scenery here is just beautiful and we are having a great time... #63 and Helen Helmer" The scenic postcard was of Las Vegas at night.

Meanwhile back on the farm, life goes on as usual.....

We are sorry that we have not published the results of the First Golf Tournament of the season yet, but promise to have it in next week. Although the tournament is now weeks old we have kept forgetting to get the scores from Len Charbonneau.

Art Pfister, bookkeeper for Molnar Plumbing, returned to his work in Drayton Valley recently after having made a trip back to his native Germany, accompanied by his wife Hedy. Art was born in Bruchsal, Baden and his wife was born in the nearby province of Württemberg, at Stuttgart. They visited Germany, Switzerland, France and Holland, after making the flight back to the Old Country by C.P.A. over the Polar route. They have lived in Canada about 4 1/2 years. Art has worked in Drayton Valley now for about a year.

BIG BEND NEWS

Calvin Manager, Mr. Jack Denison and his assistant, Mr. Fred Stern, were recently transferred to Main from their Big Bend Camp to Canlin, Alberta. Calvin has a contract with Main Company for a further three years, to look after the carrying out of the Main projects. Mr. John Adams, from Port Hardy, B.C. has accepted the position held by Mr. Denison in the Bureau Big Bend camp.

Mr. Walter N. Jensen, vice president and general manager of Calvin Caterers Ltd. was on a tour of inspection in Big Bend Bureau Camp recently. He found that this Bureau District is making great progress, and he saw many possibilities for further advancement in the next ten years. He said, "A new big city will be here in the future".

Contributed by Mr. Fred Stern, registered in Handbook of How Journalism for Europe, correspondent for European and Canadian newspapers.

Mr. M. Booth, General Manager of Pembina Pipe Line Ltd., presented fifty-one Pembina employees with Safe Driver Awards at the Company's May Safety Meeting. He commended each award winner for his excellent record.

The Safe Driver Award is presented to each employee who drives a Company vehicle accident free for a full year. Some forty-five of the fifty-one award winners were presented with fourth year awards, each representing four years of driving without an accident.

The meeting was one of the regular monthly safety meetings con-

ducted by safety supervisor, Spike Brown. His theme for the meeting was, appropriately, safe driving. Mr. E. A. (Buck) McDonald, Operations Manager, gave a short talk on what accident-free driving means to the Company.

These are the employees who named Safe Driver Awards:

4th Year: G. Albeck, A. Andersen, K. Auld, J. Balen, L. Beauchamp, R. Cabell, J. Capewell, L. Charbonneau, F. Cheple, W. Cross, W. Dierker, D. Ellery, E. Elliott, F. Falkburt, D. Fontana, L. Gano, D. Gogor, P. Hapton, K. Hunsberr, T. Henderson, N.

HOSPITAL BOARD BANQUET (Cont. from page 1, Col. 5)

Districts and Don McKenzie representing the Town of Drayton Valley. A member of the Hospital Board, but absent from the dinner meeting is Henry Landadel, representing Lodgepole.

The meeting concluded with the showing of colored slides of

medical work in Sierra Leone, West Africa, by Miss P. Wanner, medical missionary to that newly independent country on Africa's west coast. Miss Wanner has served eight years in Africa. Sierra Leone was formerly under the protection of the British government, but has been granted complete independence in the past few months, and so far has handled that independence very

well, with a stable and democratic government in power. Miss Wanner expects to return to the mission field after her furlough. She is presently staying with the MacLurens with whom she was associated on the field. She is working in the Hospital.

D. V. JUVENILES.

Cont. from page 1, col. 3

League is composed of teams from Birchhead, Mayberridge, Whitcourt and Drayton Valley. League operations will be suspended for a period of three weeks now to avoid any possible interference with school examinations and will resume early in July.

Leaving a Lions dinner one evening, the club upstairs reclaimed his coat from the check room and didn't leave a tip. The checkroom girl smiled evenly. "In case you lose your pants on the way home, sir," she said, "just remember that you didn't pull it out here."

"In our family," the little girl told her teacher, "everybody marries relatives. My father married my mother, my uncle married my aunt and the other day I found out that my grandfather married my grandmother."

SERVING THE PROVINCE OF ALBERTA

Cooking is older than recorded history... nearly as old as man himself. The use of heat to make food more palatable dates back to the cave-man's open fire. But to bring it a little more up-to-date, maybe you remember how your mother complained about the old coal and wood stove. True, it's warmth was welcome in the kitchen during the winter, but not so welcome in the heat of summer.

And what a nuisance it was keeping the woodbox filled, keeping the stove clean, carrying out ashes. Today, it's electric cooking — the clean, fast, economical method that makes cooking fun — assures you of perfect results every time. All you have to do is set the oven time, put your meal in, and forget it. When you're ready for dinner... dinner's ready! YOU live better ELECTRICALLY!

GREEN ACRES

by DICK SOCKEN

MILK PRODUCING COSTS

22 years ago, the first milk cow ready was done in ALBERTA. One cow was used to cow studies now, because they have been every year since.

It's interesting to see what's happened to the cost of producing milk in the past 2 decades. For instance, in 39 years the time needed to produce 100 pounds of milk was dropped from 3 hours to 1 hour. The average now is producing 195 more milk, - 10,361 pounds instead of 8,700. Herds are bigger - 33 cows on the average, as compared to 21 two decades ago. Farms are bigger, 500 - 300 acres in comparison with 125 acres.

The average dairy farm has \$53,000 invested in it. This is about

100% greater than the \$20,000 invested 20 years ago. Cost of milk on the farm was \$2.05; now it is \$3.36 per hundred - 65%. Price received by the farmer is up 107%, from \$2.50 to \$4.43.

During the past year Edmonton became the second milk shed in Alberta to have built back on all dairy farms. This change-over puts extra stress on these farms for two or three years as extra capital is required for building and installing the tanks, and in many instances the dairy herd must be increased.

Some of the smaller farms or older operations find the adjustment too severe or uneconomical for their situation and are being forced out of business. This happened to 4 farms in the Edmonton group. Had their records been included the average milk cost per 100 pounds would have been \$4.75 instead of the reported \$4.43 per cwt.

Production per cow is steadily increasing due to better management. High quality pasture and roughage being brought in and the right kind and amount of concentrate, depending on feed

and milk prices. Feed management is being improved by the use of artificial insemination, from high producing stock and the careful selection and culling of cows. The weighing of milk and herd improvement programs are also of assistance in maintaining a high producing herd. The combined effect of these factors is preventing milk production from climbing and at the same time improving quality, both of which are benefiting the consumer.

(Cont., page 6, Col. 1)

GREEN ACRES

(Cont., from page 4, Col. 5)

CHICKWEED

Every gardener has his own past name for chickweed. It's tough stuff. However, there are two chemicals available now that kill chickweed and clover in lawns. Don't use them amongst other plants in the garden, however.

The chemicals are Comptox and Silvex. Comptox seems best for chickweed, while silvex has the edge on clover. If chickweed, clover, and other broad-leaved weeds are all to be killed Comptox will likely be the best bet.

THE CURRENT FRUIT FLY

Maggoty fruit has commonly been caused in this district by the current fruit fly. It can be easily beaten if the centre of the bushes are sprayed on the underside of the leaves. DDT or Malathion, used according to the maker's directions, will do the trick. They should be applied just when the blossoms begin to whither.

COOKING MAGIC

HAL GABER, B.H. Home Service Director
Tested Recipes and Meal Planning
Main Prepared for Pamena News Advertiser Reader by the Home Service Department of Northwestern Utilities, Limited.

To serve as an afternoon or evening drink during the hot summer months we suggest the following recipes. Sure to please everyone!

PROTITY CHOCOLATE WHIP

- 2 beaten egg yolks
- 3 tbsp. chocolate honey paste
- 1/4 cup. meringue
- 2 cups cold milk
- 5 stiffly beaten egg whites

Beat egg yolks, add chocolate honey paste, continue beating. Stir in milk. Fold in egg whites. Pour into glasses. Sprinkle with additional meringue.

CHOCOLATE HONEY PASTA

- 3 eggs, unseasoned chocolate
- 1 cup honey

Melt chocolate in top part of double boiler. Add honey and stir well. Pour into a jar, cover and set away in a cool place. Yield: 1 1/4 cups.

FRUIT PUNCH MEDLEY

- 1 - 8-oz. can frozen orange juice concentrate
- 3 cups pineapple juice
- 2 cups water
- 1/2 cup sugar
- 1/3 cup fresh, frozen or canned lemon juice
- 1 1/2 cups ginger ale

Combine all ingredients except ginger ale; stir to dissolve sugar. Add ginger ale. Pour into 8 tall ice-filled glasses. Makes 8 servings.

ORANGE - EGNOG FLOAT

- 3 eggs
- 3 tbsp. sugar
- 2 1/2 cups water
- 3 6-oz. cans frozen orange juice concentrate
- 1/4 cup lemon juice
- 1 pick vanilla ice cream
- 1 small bottle (about 1 cup) ginger ale, chilled.

Beat eggs and sugar together in light and lemon-colored. Stir in water, orange concentrate, and lemon juice. Place scoops of ice cream in punch bowl; pour juice mixture over, just before serving, add ginger ale. Makes 10 servings.

PROTITY FRUIT PUNCH

- 3 48-oz cans unseasoned pine apple juice
- 2 1/2 cups orange juice, fresh, frozen or canned
- 1 1/2 cups lemon juice, fresh, frozen or canned
- 2/3 cup lime juice, fresh, frozen or canned
- 3 cups sugar
- 2 large bottles (7 to 8 cups) ginger ale, chilled
- 2 large bottles (7 to 8 cups) carbonated water (plain), chilled

Combine fruit juices and sugar, chill thoroughly. Pour over large cake of ice in punch bowl. Pour ginger ale and carbonated water slowly down the side of the bowl. For trim, float twist of sliced orange and sprig of fresh mint on block of ice. Make 8 quarts

ALBERTA SAFETY COUNCIL

Within the next few days 100 school rooms in Alberta will receive wall plaques from the Alberta Safety Council. Hand lettered certificates, mounted under plexi-glass on a wooden base, will show that a pupil from the schoolroom has written an essay on farm safety which was chosen by the judges to receive first prize for the school division. The pupil will receive an enamelled lapel pin to keep as a permanent personal memento.

This is the eleventh year the Alberta Safety Council has offered farm safety essays for pupils in grades five, six, seven and eight in the province's rural schools. Fifty-two school divisions entered with an estimated 46,335 children writing essays. Prizes are offered in each school division and the

Correspondence Branch and the Indian residential schools for the best essay from grades 5 and 6 and the best essay from grades 7 and 8.

Subjects for this year's contest were "Farm Machinery Safety" and "Hunting Safety".

In addition to the school division prizes, first and second prizes of \$50 and \$25 are given to the pupils from grades 5 and 6, who in the opinion of the judges, have written the best and next best essays for that group in the whole province; and the same for pupils from grades 7 and 8 at the provincial level.

These provincial prizes were presented at a special awards luncheon at the Corona Hotel, Edmonton, Monday June 5th, by Lieutenant Governor J. Percy Page. Chairman of the luncheon was J.C. Jefferson, President of the Alberta Safety Council. Chairman of the Farm Safety Essay Committee is the Hon. R. D. Toews, M.L.A. Mr. Toews has been chairman of the Farm Safety Essay Committee of the Alberta Safety Council since the first competition in 1951.

First prize winner in the Grades 7 and 8 group, Pauline Hods, is in Grade 8 at Seasmith Public School in Grande Prairie County. Pauline's teacher is Mrs. K.M. Mackay. For the first time in several years, boys have been Provincial award winners. One is Brian Koehli, who won second prize in the Grades 7 and 8 group. He attends Sedgewick School in the Killam School Division, where he is in Mrs. L. Roggenbach's Grade 8 class.

First prize in the Grades 5 and 6 group was also won by a boy. He is Tommy Irwin, who is in Grade 6 at Brent School in Vulcan County. Tommy's teacher is Mrs. B. Fletcher. Second prize in the Grades 5 and 6 group was won by Betty Hiforth, who is a grade 6 student at Hordis School in High Prairie, School Division, where she is taught by Mrs. A. DeWinter.

Division winners for this locality are: Caroline Kjerfve, Drayton Valley Elementary School in the Grades 5 and 6 group.

Winning Essay - Stoney Plain School Division #23
Pupil - Caroline Kjerfve, Grade 6.
Teacher - Mr. K. McKay, Drayton Valley Elementary School Division Superintendent - F. Hanisch, B.A., B.Ed.

FARM MACHINERY SAFETY

The weather was damp and cold. Jack worried about his wheat crop. It might freeze, and then all the year's hard work and it's earnings would be wasted.

With these thoughts running through his mind, Jack began the harvest with his blader. He had only gone around the quarter (Cont., on Page 8, Col. 1)

Looking at Recreation

By: Michael Gormley,
Recreation Director.

"PLANNING FOR RECREATION"

This week's column could have its feature topic filled with any one of the numerous phases of the Valley's recreation program. I could write on the fine recreational and athletic facilities which are presently available to one and all as well as to those which are being developed throughout the community and the district. Again I could repeat in some detail one or more of the different activities presented as a part of our leisure time program. It might be well at this time, however, to mention behind the scenes, the "back of the house" and "back of every day" activity, close our eyes to the exterior in order that we may be able to get a look at the interior of our program. Like every other organization or venture in life, a successful recreational program does not just grow up in a community without any mental effort on the part of those concerned. Such a program must be planned, in fact it can never be too carefully planned. It is to be really successful and every recreation director must have an interested, active, responsible and dedicated part in the planning of his community's leisure time program. This, in fact, is the most important phase of his day to day work. A director who can plan or help to plan scientifically, economically, intelligently, and sensibly is on the high road toward success in his chosen field.

To appreciate the significance of planning one must understand what it is and what it is not. Planning is not a victory or an empirical procedure. No successful business executive can forego it. Can anyone imagine a wing to a plan without first anticipating the need for it, and without drawing up extensive plans for its construction and final use? Not in planning an instrument for recreation. It provides a framework, or a set of immovable standards. It generates democratic procedure in its best light and provides much flexibility for individual initiative and energy. In contrast to a prevalent belief, planning is not expensive. Just compare it with the cost of not planning. Conspicuous examples, phase of their advancement for the alternative ill-disposed areas and decay. As the editors of ARCHITECTURAL FORUM have said "Planning, after all, is figuring out the way to get the best results with a minimum expenditure of effort and money."

In order to build a solid foundation for recreation planning, it is necessary to glance once again at the fundamental goals of recreation. Recreation duty becomes

more and more democratic. What the boys enjoyed yesterday the girls and juniors enjoy today. Privileges enjoyed today by the children of wealthy parents become tomorrow's opportunities for children of the slums.

An American President said a few years ago "We are organizing the production of leisure and therefore we need better organization of its consumption." Since our way of life is almost identical to that of our neighbors to the South, what applies to the American people in this respect is equally important to us Canadians. Then, to organize and distribute better opportunities for the effective consumption of leisure time is perhaps the most important overall goal in any plan for recreation.

Planning for recreation is but a part of general social planning, for recreation cannot be separated from group living. The basic principles of sound social planning demand that recreation be a part of the whole since the very core of such planning is the utilization of all the elements of community life. Under any condition, a plan for recreation must be built around the general needs of people of varied ages and interests, providing a sufficiently wide range of opportunities to satisfy its theme.

Planning is for people. Community planning is based fundamentally upon the life needs of people. These needs are physical, social, and biological; the need for air, food, clothing, shelter, for sunlight, space, contact with nature, for activity, play, recreation, and education. These needs are also social; the need for affection, association in groups in which the individual feels he belongs, the family, church, order, fraternity, neighborhood, club or team. And then there are the equally important psychological needs of self-confidence, self-respect, self-expression; the need to create, to move, to grow and to learn. These needs, through experience, education, the development of skills, association with the arts, knowledge and accomplishment.

These basic human needs may seem very simple when planning the layout of a community or even its parks and recreation buildings, but it is around them, and around them only, that successful planning revolves. A city is well planned if its inhabitants have convenient access to food, and clothing stores, if its homes are comfortable, enjoying space, air, and sun, its schools and playgrounds are well located, its

streets safe, its parks and open spaces, school libraries and other facilities are equipped for education and enjoyment. In such an environment the inherent physical, biological and psychological needs of the people can be met and satisfied.

Recreation planning and community planning in general must have a geographical focal point for physical development. This holds true in large cities but it also must be prevalent in towns and smaller centers. In this Western World this focal point is called a neighborhood. Families living together around some community institution or in the same kind of environment come to think and speak of themselves as belonging to the same neighborhood. Much of the modern recreation planning deals with the homogeneous neighborhood at one time and thereby eventually covers the whole community. In any event, a neighborhood is a natural unit with whom need can be clearly understood only by the people who live in it because they alone know what they require and want.

The trend in planning for recreation seems to lean toward the development of a self-sufficient neighborhood and this trend may be expected to receive even more emphasis in the future. The planners and town designers all across the country are looking forward with pride to the neighborhood recreation center which can, at one location, meet the wide range of needs of the entire family. It would include indoor and outdoor areas and facilities. In it will be found apparatus and space for the pre-school age child, games, skills and equipment for school-age boys and girls, social and sports accommodations for adults and even for dogs. It would almost be a combination of the nursery, the community center and the country club.

To plan intelligently for recreation one must not lose sight of the fact that, "plans are for people" and must therefore reflect the premise that recreation opportunities should be available side to side and should provide the major satisfactions which people seek in the community in the use of leisure time. As Recreation Director in such a rapidly developing community as Dayton Valley, planning and helping to plan for recreation is the most vital phase of my work. Day after day activity has its importance, however, it is something that is not today very common. In other words it results in a comparatively short lived. Planning on the other hand is something which will bear fruit in a year, a decade, a quarter of a century

and even much longer. A building, a facility or an area will be generally approved or generally disapproved depending on how efficiently that particular structure or development was planned. Community planning in any way shape or form can and should be interesting work, however, it can carry a mountain of responsibility with it. There is little room for error at a mistake can seldom be easily corrected in this particular field. The success, the enjoyment, and the way of life of the future generations depend a great deal on today's planning methods. So in small measure, this planning business and planning for recreation is no exception to the rule.

TOWN COUNCIL

HOW TO GROW SPIRITUALLY

By Dr. W. Dale Oldham
Taken from "The Gospel Trumpet"

Every Christian expects to become 100% Christ and to carry forward the work that Christ began on earth. Every year every Christian should show progress in this direction.

We are Christians the moment we are converted, but growth and development should take place the rest of our lives.

Com is com when the little green shoot is no more than three inches tall. But during the next three months, every day and night men further growth and maturity. In our desire for spiritual growth, let us first recognize our human limitations.

GROWTH IN GRACE AND KNOWLEDGE

The growth we seek is in God and from God. Paul plants, Apollos waters, but God must give the increase.

Peter said growth should be in two areas - first, in grace, and second, in the knowledge of our Lord and Savior Jesus Christ (1 Pet. 3:18). Grace is a gift - a free gift bestowed upon seeking hearts. Knowledge comes to those who hungrily seek the truth.

Actually, one very hunger for a closer walk with God is a gift from him, for no man comes to God except the Holy Spirit draws him.

DESIRE AND EFFORT

The Holy Spirit is a conditioner of our hearts. It is our receptivity and hunger for God which determine how much God can do for us, how much we can grow in grace.

So we determine how much God is to do for us and through us. We determine it by our desires and attitudes and by the readiness with which we open our heart to his suggestions.

Spiritual growth depends on two things - desire and effort. The satisfied person experiences no spiritual growth. Neither does the indolent, undisciplined person.

IN GRACE - BEWARE YOU CAN GROW.

A large part of the secret of spiritual growth is to be found in 1 Peter 3:18. Peter writes, "Supplement your faith with virtue."

The Christian profession calls for constancy. Sin in any form is inconsistent with that profession. Christian means Christlike, but sin is devilish.

Moffet translates this passage, "Furnish your faith with virtue." 1B. Phillips translates it, "See that your faith carries with it real goodness of life."

How many times Christian faith and the Christian witness have been weakened because they were not fortified by personal goodness. The deliberate sinner never grows in grace, for he is not willing to live in the climate of grace. You have to be in grace before you can grow in grace.

SURRENDER TO GOD

We find faith to grow as we place our lives more and more perfectly and completely in the hands of God, to be controlled and motivated by him. Every Christian should be a growing person. We should ask God to make us better persons, more Christlike persons, more loving, tender, and compassionate.

We should pray to find more vital interest in the church and the things of God. We should become more interested in the needs of people, more interested in bringing the lost to Christ.

ADD VIRTUE.

"Add to your faith, virtue," Peter said. The word "virtue" means moral excellence. So every Christian should add moral excellence to his belief in God, in Christ, in the Bible, and in the church.

Nothing hinders the progress of the church to a greater degree than a lack of moral excellence in the lives of those who constitute church. And nothing hinders individual spiritual growth more than knowledge of sin in the heart.

Charles Haddon Spurgeon once said, "What separation from you, world, what heavenly walking."

THEME: "The Consumption of the Word of God"
Tune in this Sunday!

with God, ought to be seen in those who are chosen to be a peculiar people, the representatives of God on earth and co-workers of the New Jerusalem. . . . As the world wears worse and worse, it behooves men of God to become better and better."

FREEDOM FROM SIN

True, now and then one who has been a professed follower of Christ will be overtaken by sin and will stumble in the road. This is not necessary, and it is not God's plan for his people, for the standard for Christians in righteous living.

The standard for Christians is freedom from deliberate transgression against God. Dedicated Christian faith sustains the moral conscience of the believer. Thus he keeps himself in the love of the Lord, and "that which one touches him not," grace.

WITNESS TO GOD

We find faith to grow as we place our lives more and more perfectly and completely in the hands of God, to be controlled and motivated by him. Every Christian should be a growing person. We should ask God to make us better persons, more Christlike persons, more loving, tender, and compassionate.

We should pray to find more vital interest in the church and the things of God. We should become more interested in the needs of people, more interested in bringing the lost to Christ.

We should pray to find more vital interest in the church and the things of God. We should become more interested in the needs of people, more interested in bringing the lost to Christ.

ADD VIRTUE.

"Add to your faith, virtue," Peter said. The word "virtue" means moral excellence. So every Christian should add moral excellence to his belief in God, in Christ, in the Bible, and in the church.

Nothing hinders the progress of the church to a greater degree than a lack of moral excellence in the lives of those who constitute church. And nothing hinders individual spiritual growth more than knowledge of sin in the heart.

LOOKING AT RECREATION

(Cont. from page 6, Col. 5)

The "Keep Fit" Club, formed last November has been a tremendous success, thanks to the tireless and efficient work of Mrs. Leewenburg. The club has been divided into two sections, Senior and Junior. The junior girls from six to nine years of age meet every Thursday evening while the Senior girls, the nine to twelve age group, get together for gym work every Saturday morning. All classes have been held in the local Scout Hall. Friends say that the percentage of regular attendance against the enrollment number has been 90% more or less, which is exceptional in any field of activity.

This club was possibly the most instrumental of all the local organizations of its kind in helping to round out a complete and all-round recreation program. Up until last November, there was not very much being accomplished for the girls in this particular age group, however, the "Keep Fit" Club seems to have solved a very long-standing problem in a most efficient manner.

It is hoped that this past-season performance such as is scheduled for Saturday night will develop into a yearly event. I think that you will find that the girls both big and small have acquired a generous amount of gym skill during the past month and Mrs. Leewenburg is the one solely responsible for this outstanding progress.

AROUND TOWN

Big Ken Machan banged the first home run at the remodelled Legion Baseball Park last Wednesday evening against Warburg. Ken had been gunning to clear the newly constructed fence at the Legion field for some time and it was actually no surprise when he made it. The new barrier is not next door from home plate and is not the easiest in the world to clear on things for sure and certain, home runs will never be a dime a dozen in Drayton Valley unless we come up with a few modern "Babe Ruths". These homers will likely be earned the way things should be.

CWL Regular Meeting

St. Anthony's Catholic Women's League held their regular monthly meeting at the rectory with 14 members attending. Due to the absence of our Director Rev. Father Scriven, Mrs. Veague, Spiritual Director opened the meeting with the league prayer.

A communion breakfast will be held on Sunday, June 18, at the Club Cafe. All ladies of the parish are cordially invited. Would all ladies who are planning to attend please phone Mrs.

Whelan at 642-3837 or Mrs. Goetz at 645-3776 by Friday, June 16th.

Mrs. Branika and Mrs. Shanley are to attend the annual Diocesan Convention at Edmonton on June 9, 10 & 11th. The theme of the convention for this year is "Order of Prayer" that we may be one.

A delicious lunch was served by Bursington, Mrs. Morahan and Mrs. Whelanham.

Congratulations are extended to the proud parents of their new arrivals: Mr. and Mrs. Allan Horne, a baby girl, Katherine Leigh, 10th, Mr. and Mrs. Pete Nebo, a baby girl, Judith Marie, 6th.

beats 'em all in VALUE leads 'em all in SALES

A GENERAL MOTORS VALUE

Model illustrated: BEL AIR SPORT COUPÉ

Spectacular value produces spectacular sales! Chevrolet's unbeatable sales record year after year is the undeniable evidence that CHEVROLET IS BEST - AND CAN PROVE IT!

The greatest! The greatest value-packed Chevrolet ever built! The car that gives you more—more of the features, the style, the performance, the room, the ride, the comfort—more of everything you want! Outstanding style: The 1961 Chevrolet has out its own pace-setting swash through the world of automobile design. Greatest Chevy Ride in History: The one great ride in its field... unbelievably quiet... unbelievably smooth... indescribably perfect! Power-packed Performance plus Economy: Chevrolet combines the finishing response that satisfies your every demand—with the shifty ways that satisfy your budget! In every way, there is no automotive value that can compare with Chevrolet's—none that can come close. And Chevrolet sales prove it! *Whitwell tires optional at extra cost.

SEE! TRY! BUY! THE MOST SPECTACULAR CHEVROLET IN CHEVROLET HISTORY!

GYMKHANA NEWS

By Carol McCullagh

The Latest Gymkhana Club held their second point scoring gymkhana on Sunday, June 11th at the Gymkhana grounds, with a large crowd on hand to witness the various events run off. The timed events were the pole bending, stake racing, and flag picking. The novelty events in order run and women were the Mens Sack Race with Steve Roddin placing first, Cliff Whitlock second, and Fred Kynock third; Women's Cigar Race with Sherry Davies and Bev Kynock tying for first, Corinne Dix second, and Babe Brown third; Children's Boot Race with Margaret McCullagh first, Lloyd Matlock second and Lennie Shultz third; in the Adult Pairs Helpline Hannah Race Sherry Davies and Jackie Harle placed first, with Babe Brown and Cliff Whitlock placing second and Bev and Fred Kynock third. The final race run was the Children's Doughnut Race with Lennie Shultz first, Clayton Brown second and Allan Shultz third.

Many thanks are extended to the spectators for the silver collection and encouragement given to the participants, to the time keepers, judges, and score keepers, and to those who helped in the booth.

We hope to see you all out again at our next gymkhana to be held towards the end of July, to watch your local paper and the news windows for the date of the next gymkhana.

Motorcade staged by General Motors last year in Montreal, Toronto and Vancouver were visited by 750,000 people.

Your MP

Dr. Hugh Horner Reports

House of Commons June 6, 1961 - taken from Montreal on Orders of the Day

FRES - Alberta - Inquiry as to Assistance of Armed Forces

On the orders of the day:

Mr. H. M. Horner (Asper - Ed-ton): Mrs. Speaker, I should like to direct a question to the Minister of National Defence. The hon. member for Peace River and myself are very concerned about the serious forest fire situation in northwest Alberta. I should like to ask the minister whether he has received any request from the province of Alberta for assistance from the armed forces to help in fighting the serious forest fires in the Edson and Grande Prairie areas of Alberta.

The increase in the allowance is from \$70.00 to \$84.00 in the case of the unmarried or widowed veteran.

It increases maximum total annual allowed (including allowance) from \$1,090 to \$1,390 in this category.

For married veterans receiving War Veterans Allowance the increase is from \$120 to \$144 and the allowable income has increased from \$1,740 to \$2,088.

There are also changes in regard to widow status making it easier for them to qualify for benefits. There is an increase of \$9,000 from \$8,000 in the exemption of the value of any property in which a veteran resides for the purpose of determining income under the Act.

The amount of personal property that a single veteran may have has been increased to \$1,250.00 from \$1,000.00 and for married veterans from \$2,000.00 to \$2,500.00.

I am sure that this equitable increase will be welcomed by veterans in my constituency.

Husband: "Do you have any idea how many really great people there are in this country?" Wife: "No, I don't, but I'm sure it's one less than you think."

going executive. The president Marg. Walters presented each one with an executive pin in appreciation of their work for the year. Lois Lockwood in turn presented Mrs. Walter with a president's bar on behalf of the club. The new executive was then installed and they took their places at the head table for the remainder of the evening.

The dining room was tastefully decorated in a vacation mode and the programme followed along the same line. A travelogue in song was presented and Mrs. Roy Burrows showed slides taken during the time that her family resided in Europe.

Oilfield Baseballers Open May 28

Special To The Journal — The regular schedule for the eastern and western divisions of the Oilfield Baseball League were released this week by league president Gene Walworth. The 11-team loop is slated to begin action May 28, with first games set for July 5. Telling in the eastern section will be Leche Orlery, Mulholland, Conjur Creek, Wilsford, Glen Park, Calmar Club and Devon. Competition on the western side will be provided by Drayton Valley Legionnaires, Warburg,

Bretton, Genesee and Thorby Canals. The schedule follows: June 14, Thursday at Orono, Orlery vs. Leche; June 15, Friday at Orono, Orlery vs. Leche; June 16, Saturday at Orono, Orlery vs. Leche; June 17, Sunday at Orono, Orlery vs. Leche; June 18, Monday at Orono, Orlery vs. Leche; June 19, Tuesday at Orono, Orlery vs. Leche; June 20, Wednesday at Orono, Orlery vs. Leche; June 21, Thursday at Orono, Orlery vs. Leche; June 22, Friday at Orono, Orlery vs. Leche; June 23, Saturday at Orono, Orlery vs. Leche; June 24, Sunday at Orono, Orlery vs. Leche; June 25, Monday at Orono, Orlery vs. Leche; June 26, Tuesday at Orono, Orlery vs. Leche; June 27, Wednesday at Orono, Orlery vs. Leche; PEMBINA NEWS ADVERTISER

Vol. 6 No. 23 June 21, 1961 A. Flavel, Publisher. Box 128, Drayton Valley.

ROTARY "FLY-IN" BUILDING PERMITS

Drayton Valley Rotarians were host to a "fly-in" of four planes carrying fourteen visiting Rotarians on Wednesday, June 14th. The visiting Rotarians arrived at the Mobil Airstrip at about 8 o'clock and were guests at the regular weekly Rotary dinner meeting in the Club Cafe.

The Drayton Valley town band under the very capable leadership of bandmaster Karl Wahl met the visitors as they arrived at the airport, and were later also guests at the Rotary dinner.

The Rotarians who made the flight to Drayton Valley were Jim Greer, of Edmonton Club; Ed Spratlin, Edmonton Club; Don Hamilton, West Edmonton Club; Mickey Collins, Edmonton Club; Derek Split, West Edmonton Club; Ian Roger, West Edmonton Club; Art O'Hanlon, South Edmonton Club; Tom Douglas, South Edmonton Club; Howard Watson, who is president of the South Edmonton Club; Tubby Bateman, South Edmonton; Scotty McInosh, South Edmonton; Ron Gensham, Edmonton Club; Floyd Moore, president of the West Edmonton Club; and Charles Hesel, South Edmonton.

First speaker for the evening was Don Hamilton, who spoke on "Flight of the Present". He told of the mighty commercial jet.

In the pitching duel, Legions journeyed to Thonby on Sunday and has no trouble disposing of the Canucks to the tune of 11 - 3. Thonby never recovered after the Drayton Valley boys bagged six big runs in the first inning. Reddinger again was on the mound for the winners. Next game takes place on June 21st at Newon.

The tie occurred last Wednesday as the Buffaloes came from behind in the sixth inning and sent their fans home satisfied with a 4 - 4 deadlock. Jerry Reddinger and Lesson Ruff came out even.

Don't forget the big ball tournament here July 7th and 8th. Watch this column for further announcements.

By Ken Machan.

Drayton Valley Rotarians met the Edmonton Rotarians at the Mobil airstrip when the visiting clubs flew in for the dinner meeting on June 14th. Planes in the group of four were two Canadas and two Apaches, each seating four persons. The Canadas are single motored and the Apaches are twin motored.

The planes made a very pretty sight as they came in from the north, over the ridge of trees, for very smooth landings on the airstrip.

District Personalities

GORDON KYNOCH Photo by Curt's Studio

Gordon Kynoch was born in Aberdeen, Scotland, in 1889. His parents moved to the city of Edinburgh when he was six years old, where he remained until he emigrated to Canada in 1904, at the age of 19. He came first to Winnipeg, and worked at various places in Manitoba for a few years, until he joined the Winnipeg Police Force and served with them for three years, until 1910, when he decided to come farther west and came to Edmonton. For a couple of years he worked on a railroad, north of Edmonton. In 1915 he came to this area, where he took up a homestead, on which he still lives. During the winter, for the next 25 years he worked in the coal mines in Evansburg to help grub the summer work on the homestead.

Mr. Kynoch worked on the survey for the dam, before the first World War, in 1913 and 1914. He also worked on the survey for the railroad, which, it was expected, would be built in between from Ennville. The railroad survey started at Brownhill Flats, on the Saskatchewan River, near the proposed site of the powerhouse; it went west of Drayton Valley a couple of miles, through what is now the Harris farm. It then turned a little east and south to a spot just north of Rocky Rapids, where the Mr. McCallagh farm is now located, after which it went straight north to Ennville. The railroad survey had been completed, with lines on and stakes driven before the war conditions called all the engineers into the army and the group that went putting in the dam, dropped the project until after the war, and as it turned out, it was dropped permanently, with the final building up of this area coming, not as a result of the dam and powerhouse here but as the result of the discovery of oil some forty years later. Mr. Kynoch said that Mr. Roy Piers was sawing lumber at that time at a point near the damsite for the construction of the dam; but when the project was dropped the lumber was rafted down the river a few miles from Ennville. The railroad survey
